Sir:

In accordance with 37 CFR 1.97 and 1.98, and with MPEP Section 609, the materials set forth on the enclosed forms PTO/SB/08a and 08b, are brought to the attention of the Examiner. Copies of the non-U.S. patent documents are enclosed. Copies of the U.S. patent documents are not enclosed.

Each of the documents cited in the International Search Report, which is a part of the published PCT application WO 2005/094054 A1, is listed on the PTO/SB/08a form.

U.S. patent No. 4,685,139 is in the English language.

U.S. patent No. 5,712,921 is in the English language.

Copies of the documents cited in the specification of the subject application are enclosed.

DE 40 23 320 is accompanied by an English language abstract which was obtained from a commercial database.

DE 199 40 879 is accompanied by an English language abstract which was obtained from a commercial database.

The several other documents, as set forth on the PTO/SB/08a and 08b forms, were provided to the undersigned by applicants' principal representatives in Germany, without comment.

DE 34 33 493 is accompanied by an English language abstract which was obtained from a commercial database.

The publication document does not appear to have an English language abstract. It appears to be a copy of an article prepared for the automobile industry in 1986 and deals with the quantification of quality values.

Entry of these materials into the file of the subject U.S. patent application, and their consideration by the Examiner is respectfully requested.

Respectfully submitted,

Thomas TÜRKE
Harald Heinrich WILLEKE
